

FOOD WASTE

We're students in Akita Minami High School and we're studying about food wastage for our school project. We would like to comprehend how the Food Waste issue is in different countries and compare with that in Japan. We appreciate your cooperation.

1. Where are you from? (include the state)
2. Is Food Waste often talked about where you are from?
3. Do you think Food Waste is an issue that has to be solved right away where you are from/in the world? Why?
4. Do you think you throw away edible food a lot?
 - Yes
 - No
 - Maybe
5. Do you think a large amount of edible food is thrown away where you are from?
 - Yes
 - No
 - Maybe
6. What will you most likely do when you have food past its use-by date/best-before date?
 - Throw it away
 - Depends on how far it is past the date
 - Depends on how it looks and smells
 - Others
7. Which following kinds of food do you think you throw away the most?
 - Carbohydrates
 - Vegetables & Fruits
 - Meat & Fish
 - Snacks
 - Processed foods
 - Others
8. Is the government where you are from doing anything to reduce food waste? If it is, tell us specifically.
9. If you have anything else you want us to know about food wastage where you are from, please let us know
